Personal statement

Seeking employment as a Software developer with exceptional technical and design skills as well as 6 (six) years of experience with front-end and back-end development. Intend to work in a challenging and competitive environment where strong sense of responsibility and commitment is required. I strongly believe my skills will equip me to work in any place, where the dignity of work provides job satisfaction and place of work provides potential avenues to secure an executive position. One of my objectives is to keep updated with the latest IT trends and technologies. I am confident that if given the opportunity, I can be a useful talent to the company.

Work history

August 2017 - Present **Sr. Software Programmer | Celloscope Limited, Adabor, Dhaka**
